Features

- **Nextcloud Mail**
  A mail app for Nextcloud to send and receive emails. Unified inbox with multiple accounts. It recognizes travel itineraries and automatically adds them to your calendar. Please note: Nextcloud Mail is a client for IMAP servers, it does not include a mail server. Mail servers from Dovecot Pro or Stalwart can be purchased separately.
- **Nextcloud Calendar**
  The Calendar app is a user interface for Nextcloud's CalDAV server. Easily sync events from various devices with your Nextcloud and edit them online.
- **Nextcloud Contacts**
  The Nextcloud Contacts app is a user interface for Nextcloud's CardDAV server. Sync your contacts from various devices with your Nextcloud and edit them online.
- **Nextcloud Deck**
  Deck is a Kanban-style organization tool aimed at project planning and organization for teams.
